

Contact Grid

Magento 2 Module to store Contact Us form submissions in DB and show in Admin grid.

Installation

Step 1: Download the module

Step 2: Unzip it to Magento 2 app/code/ folder.

How to use:

```
php bin/magento setup:upgrade
```

```
php bin/magento setup:di:compile
```

```
php bin/magento setup:static-content:deploy
```

```
php bin/magento cache:flush
```

To enable/disable module go to [Stores > Configuration > ArmMage > Contact Grid](#) or [ArmMage > Configuration](#) in sidebar menu and in [General Configuration](#) switch the value of [Module Enabled](#) field to Yes/No (default value is Yes).
