

# Buy Now

## Installation Guide

Follow these steps to install the "Buy Now" module:

Download and unzip the module: Download the module package and unzip its contents to a temporary folder on your computer.

Upload the module to your Magento 2 installation: Upload the module's files to the app/code directory of your Magento 2 installation. Ensure that the module files are located in the following path:

```
app/code/ArmMage/BuyNow
```

Enable the module: Open a terminal window and navigate to the root directory of your Magento 2 installation. Run the following commands to enable the module:

```
php bin/magento module:enable ArmMage_BuyNow
php bin/magento setup:upgrade
php bin/magento setup:di:compile
php bin/magento cache:clean
```

Configure the module in the Magento Admin Panel: Log in to your Magento Admin Panel, and navigate to Stores > Configuration > ArmMage Extensions > Buy Now.
