

# Ameria Payment Module user Guide

## Steps

1. Contact America Bank technical branch request for your credentials
2. Go to Settings

3. Fill the data provided from America into here

A screenshot of the 'America Payment Settings' configuration form. The form is divided into two sections: 'America Pay' and 'Use Credentials'. The 'America Pay' section includes fields for 'Status' (set to 'Yes'), 'URL' (set to 'America Pay'), 'Payment gateway', 'API ID' (set to 'Yes'), and 'API Key' (set to 'Live mode'). The 'Use Credentials' section includes fields for 'Payment type', 'Payment URL', 'Set Payment gateway', 'API ID', 'API Key', and 'Merchant ID'. A second, identical form is visible below the first one.

4. Save the configuration  
Go to system > tools >Cache Management >refresh caches
